

FOR A BETTER TOMORROW, WE PLAY TODAY.

THE COMPANY

Landscape Structures headquartered in Delano, Minn., approximately 30 miles from Minneapolis, has been researching, designing, manufacturing and installing playgrounds worldwide for nearly 50 years. The company currently has more than 400 employees and a global network of independent distributors.

Since the very beginning, Landscape Structures has been committed to enhancing children's lives through play while honoring the environment. We design community and school playgrounds that encourage kids of all ages and abilities to learn persistence, leadership, competition, bravery, support and empathy through play. We push the limits—of design, inclusion, play—to help kids realize there is no limit to what they can do today and in the future. We also believe that play doesn't stop after childhood. That's why we promote adult fitness, and offer products and park designs that encourage multigenerational play and activity. It's our goal to create gathering spaces the whole community can enjoy.

OUR COMPETENCIES

Landscape Structures is the leading manufacturer of commercial playground equipment in the industry. We utilize precision manufacturing techniques that ensure consistency, safety and durability in every playground product we make. As a 100-percent employee-owned company, we are committed to producing the highest-quality, most environmentally preferable products available for longer-lasting, sustainable products that are built to last for years—and generations—to come.

Our culture is efficient, quality-focused and innovative. Every person at Landscape Structures truly has a vested interest in success.

Key competencies that make Landscape Structures better than anyone else:

- Product Development
- Custom Products
- Precision Manufacturing
- Design
- Sales, Distribution and Installation Services
- Customer Experience

INNOVATIVE SOLUTIONS FOR COMMUNITIES

Landscape Structures has a strong and unwavering commitment to creating innovative products and playground designs. Our diverse team of architects, drafters, interior designers, graphic designers and industrial designers work together with engineers to provide the best solution for every design concept. We're the only commercial playground equipment manufacturer to perform all of our design, engineering and manufacturing in-house, so each step is carefully completed under our watchful eyes.

OPPORTUNITIES

Landscape Structures will have ownership level opportunities that arise from time to time. If you are interested in owning your own business, please email Karlye Emerson at KarlyeEmerson@playlsi.com.
