### **Steve King Honored for Commitment to Inclusive Playground Design**

King recognized with Visionary Leadership Award from Shane’s Inspiration  
Delano, Minn. (May 3, 2012) — Steve King was honored with the Visionary Leadership Award from Shane’s Inspiration, a nonprofit organization specializing in the design and educational programming of inclusive playgrounds, at their annual gala on April 21. King, the cofounder of Landscape Structures Inc., the Delano, Minn.-based commercial playground equipment manufacturer, was recognized for his commitment to providing inclusive playground equipment for children of all abilities as well as his philanthropic support of Shane's Inspiration’s abilities awareness programs.

King, an American Society of Landscape Architecture Fellow, created a new type of play environment as his final project at Iowa State. After observing children at nearby playgrounds and the child development department on campus, he put together a concept that combined traditional playground equipment such as slides and climbers into an endless stream of connected activities, which he later termed “continuous play.”

Since that concept was introduced, King has continued to build upon it. He has committed his entire life to creating play spaces for children of all abilities. King was chairman of a task group of the American Society for Testing and Materials (ASTM) that worked with the U.S. Consumer Products Safety Commission (CPSC) to update the ASTM F1487 Specification, a voluntary safety and accessibility standard for public playground equipment designed for children ages 2 to 12. His task group had the added responsibility of developing playground accessibility standards to comply with the Americans with Disabilities Act (ADA).

In addition to his commitment to providing truly inclusive playground equipment, King was honored for his continued support of Shane's Inspiration. King and his wife and cofounder of Landscape Structures, Barbara (1946-2008), met Catherine Curry-Williams and Tiffany Harris, cofounders of Shane's Inspiration, more than 10 years ago. Since then, Shane's Inspiration and Landscape Structures have partnered to design and install more than 30 inclusive playgrounds throughout the U.S., Canada and Mexico. In 2011, the companies sponsored the *Together We Play™* essay contest, which awarded six communities throughout North America with inclusive playground equipment from Landscape Structures and project development, design and educational programming services from Shane's Inspiration.

Since 1971, Landscape Structures Inc. has been the leading commercial play equipment manufacturer in the world. The employee-owned company is committed to making the world a better place with active children thriving in leading communities year after year, generation after generation. Landscape Structures encourages outdoor play that develops healthy kids and a sustainable world by creating innovative products that are environmentally responsible. As a leader in inclusive play, Landscape Structures is committed to designing truly inclusive playgrounds that provide places where children of all abilities can play, learn and grow together. The company's mission from day one has been to enhance children's lives by fostering and creating inspiring play experiences while honoring the environment.
