Landscape Structures Featured in “Land of Oz” Garden at EPCOT® International Flower & Garden Festival

Stretching kids’ imaginations with movie-themed playground designs

Delano, Minn. (March 12, 2013) — Landscape Structures Inc., a Delano-Minn.-based commercial playground equipment manufacturer, is proud to have its playground equipment featured at the 20th Annual EPCOT® International Flower & Garden Festival, which kicked off March 6 and runs through May 19, in Lake Buena Vista, Fla. Landscape Structures is an 11-year participant at the Festival, which takes place each spring and displays colorful flowers, gardens and more than 75 character topiaries.

New to the Festival this year is the garden and children’s play area called, “Land of Oz.” A themed Evos® playsystem is linked to the PlayBooster® Vibe™ to create a truly unique play experience. A rainbow-colored O-Zone® climber, cityscape and flower post toppers, and custom Vibe roofs will stretch kids’ imaginations and muscles. Additionally flower pod steppers lead to three Cozy Domes®, fun playground components that act as a hide-away on the inside while providing climbing fun on the outside.

In addition to the all-new “Land of Oz” garden, Landscape Structures has a nature-inspired playground that was designed especially for 2- to 5-year-olds. A PlayBooster playstructure complete with The Pinnacle™ and The Pointe™ rock climbers fit perfectly into the garden, which has a southwestern-themed landscape. And EPCOT didn’t forget about the teenagers, parents and grandparents visiting the park. In yet another garden, three of the HealthBeat® outdoor fitness stations are available for a quick workout.
