Nebraska Recreation & Park Association Educational Institute Encourages Parks and Recreation Professional to Focus on the Power of Fun at Work

Keynote, sponsored by Landscape Structures, inspires increased productivity
Delano, Minn. (Sept. 12, 2013) — Landscape Structures Inc., a Delano, Minn.-based commercial playground equipment manufacturer, along with its Nebraska playground consultant, Outdoor Recreation Products, will exhibit at the 2013 Nebraska Recreation & Park Association (NeRPA) Annual Educational Institute Sept. 16-18, in South Sioux City. The conference will feature Walter Stasinski, a nationally known speaker with master's degrees in education and public health, as the keynote speaker. This learning experience was made possible through the 2013-2014 State Association Speaker Scholarship program from Landscape Structures.

Stasinski's keynote topic will focus on the power of fun at work. Session attendees will receive practical tools to reduce stress, re-energize, defuse conflict and make work more fun. According to Stasinski, individuals can achieve success and have fun doing it. As a bonus, he'll discuss how humor will help with productivity and creativity.

As a son of hard-working Polish immigrants who came to the U.S. with not much more than the clothes on their back, Stasinski began his "speaking" career as a teacher and football coach at Wayne State University. It was there where he learned to motivate and inspire. He also learned that people absorb more when they're having fun, so he uses humor to get the message across to his audience.

Stasinski will present his keynote address at 7 p.m. on Monday, Sept. 16. Prior to the welcome and keynote speaker, attendees of the Educational Institute will have the opportunity to visit Outdoor

Recreation Products and Landscape Structures in the exhibit hall to learn about the latest trends in playground design including custom and theme designs.

About Landscape Structures Inc.

Since 1971, Landscape Structures Inc. has been the leading manufacturer of commercial playground equipment in the world. The employee-owned company is committed to creating a better world by encouraging outdoor activities that develop healthy kids, families and communities. Landscape Structures designs better playgrounds that welcome all ages and abilities, become signature gathering spaces for communities and offer the most innovative play experiences. The company's mission from day one has been to enhance children's lives by fostering and creating inspiring play experiences while honoring the environment.

About Outdoor Recreation Products

Outdoor Recreation Products has been the exclusive distributor of Landscape Structures commercial playground equipment in Iowa and Nebraska since 1982. The company works with clients from the planning and design phase of projects through installation. In addition to playground equipment and Skatewave® modular skatepark equipment, Outdoor Recreation Products offers Vortex Splashpads, outdoor furnishings, athletic equipment and other related products.
