

## THE COMPANY

Landscape Structures, headquartered in Delano, Minn.—approximately 30 miles from Minneapolis—has been researching, designing, manufacturing and installing playgrounds worldwide for more than 50 years. In addition to our industry-leading playgrounds, we proudly design and manufacture Aquatix® splash play solutions that deliver inclusive, water-based fun, and SkyWays® commercial shade structures that provide comfort and protection from the elements. With more than 800 employees and a global network of independent distributors, we bring our passion for play to communities around the world.

Landscape Structures is the leader in commercial playground equipment design and manufacturing. Since 1971, we have transformed the landscape of play by bringing captivating play spaces to communities and schools across the globe. Everyone at our employee-owned company welcomes the responsibility of creating experiences that honor and include every child's unique abilities. We believe play is life-changing. Because play, when designed for everyone, brings out the best in all of us.

## OUR COMPETENCIES

Landscape Structures is grounded in a deep sense of purpose and pride. As a 100-percent employee-owned company, we lead with our hearts—backed by a passionate team that spans from our headquarters to our playground consultants throughout the world. Every person who touches our brand truly cares about creating play that makes a difference. We build lasting relationships with communities, caregivers and kids, and we treat our customers and one another with respect, honesty and commitment. When we say, “You have our word,” we mean it—we stand by our products and our people with integrity and loyalty.

We also set the standard for exceptional design. Our team of creative minds leads the industry in designing captivating, high-value play experiences. We believe that great play starts with thoughtful, inclusive design—and that better design leads to better outcomes for kids and communities. Innovation is in our DNA. We boldly push boundaries and constantly seek smarter ways to enhance durability, safety and sustainability—redefining what's possible in commercial play. Most importantly, we believe play is for everyone. As champions of inclusive play, we work hand in hand with the disability community to ensure every child can experience the joy, growth and connection that play makes possible.

Key competencies that make Landscape Structures better than anyone else:

- Product Development
- Custom Products
- Precision Manufacturing
- Design
- Sales, Distribution and Installation Services
- Customer Experience

## INNOVATIVE SOLUTIONS FOR COMMUNITIES

We deliver innovative solutions that elevate play and strengthen communities. Our multidisciplinary team of designers and engineers leads the industry in creating play experiences that are as imaginative as they are enduring. With expertise across every facet of play design, we set the standard for quality, value and innovation. From the first sketch to the final installation, we push boundaries with purpose—introducing new ideas, materials and manufacturing methods that transform how communities experience play. By balancing creativity with long-lasting durability, we help communities invest in playgrounds that stand the test of time and deliver exceptional value for generations.

## OPPORTUNITIES

Landscape Structures will have ownership level opportunities that arise from time to time. If you are interested in owning your own business, please email [info@playlsi.com](mailto:info@playlsi.com).
